D6.4. povzetek – Slovenščina

The Sustainable Impact Assessment has been documented in the deliverable D.6.4. "Assessment of environmental impact, economic and societal competitiveness". This report has included the environmental, economic and social assessment of the use of electrical bicycles and scooters for delivery of goods and services in urban areas. A summary of the main conclusions is presented here.

Ocena učinka trajnostnega razvoja je bila dokumentirana v dokumentu D.6.4. "Presoja vplivov na okolje, ekonomska in družbena konkurenčnost". Poročilo vključuje okoljsko, ekonomsko in socialno oceno, vezano na uporabo električnih koles in skuterjev za dobavo blaga in storitev v urbanih območjih. Povzetek glavnih ugotovitev je predstavljen v nadaljevanju besedila.

E-bikes have been introduced for different services such as post, parcel, food delivery or other services such as home care. In total 80 E-bikes from 40 companies in 7 different countries and 20 different cities all over Europe have been tested including different models such as:

- Small e-bikes with baskets or saddlebags
- Bullit e-bikes
- e-cargo tricycle with high capacity (load and volume)
- e-scooters
- Group-e-bikes/ e-cargobikes for children
